

LBJ Hospital Administrator Elected to National Organization

New NAPH chair looks forward to helping the uninsured

Dr. Margo Hilliard, Administrator of Lyndon B. Johnson General Hospital, has been named Chair of the Executive Committee of the National Association of Public Hospitals and Health Systems (NAPH). She began her one-year term June 24. The Harris County Hospital District executive hopes to be an effective spokesperson for NAPH's five strategic priorities: safety net hospital financing, quality health care, promoting the image of safety net hospitals as a vital component in the community, increasing political clout and support for future capital needs. NAPH represents more than 100 hospitals and health systems that form the safety net for the uninsured and underinsured.
